

## Leak Detection Equipment 0.1 bar

Fully analog leak detection equipment with visual readout. Primarily used in the defense industry for inspection of tanks and housings.

### Technical Specifications

<b>Pressure range</b>	0.0 – 0.1 bar
<b>Type</b>	Analog
<b>Manufactured in</b>	Sweden

## Leak Detection Equipment 0.3 bar

Fully analog leak detection equipment with visual readout. Primarily used in the defense industry for inspection of tanks and housings.

### Technical Specifications

<b>Pressure range</b>	0.0 – 0.3 bar
<b>Type</b>	Analog
<b>Manufactured in</b>	Sweden

## Leak Detection Equipment 1.0 bar

Fully analog leak detection equipment with visual readout. Primarily used in the defense industry for inspection of tanks and housings.

### Technical Specifications

<b>Pressure range</b>	0.0 – 1.0 bar
<b>Type</b>	Analog
<b>Manufactured in</b>	Sweden
